

Lesson Plan: Things That Use Energy

Objectives:

- Enhance student awareness of things around the house that use electricity.
- Practice phonemic awareness and writing skills.

Standards: (Cited from Ohio's Department of Education)

- K-2: Recognize sources of energy and their uses (pg. 3)
- K-2: Explore how energy makes things work (e.g., batteries in a toy and electricity turning fan blades). (pg. 9)
- K-2: Use oral, written and pictorial representation to communicate work. (pg. 11)

Activity:

1. Follow lesson as presented by Things That Use Energy
2. Share ideas as a class
3. Post individual diagrams in classroom

Assessment:

- Completion of activity diagram
- Participation in class discussion
